

1. K-Love has been serving me as a local resident for over 3 years on 105.5, 89.1 and 100.9 in the state of Arizona.
2. I do not feel that the many LPFM stations proposed would fill the need for commercial-free Christian music. The FM translators also allows for a "National" presence and a unified community.
3. The service provided does serve the public interest through wholesome, Christian-based programming available 24 hours a day and in many cities across the United States. Being an engineer that travels often, I enjoy finding K-Love in so many cities.

Please do not replace K-Love with a LPFM network.

Best regards,

Mike James
